for Persons with Disabilities

### SUMMARY

People with disabilities often experience difficulties in entering the labour market. In order to promote diversity and foster social inclusion and active participation in society on an equal basis with others, the restaurant Druga Violina in the centre of Ljubljana includes people with disabilities in its workforce.

Since the restaurant was established five years ago, public opinion relating to the abilities of people with disabilities has changed positively, and negative stereotypes and prejudices are being overcome.

Supported employment in the restaurant is just one of many activities of the Dolka Boštjančič Education, Work and Care Centre (CUDV Draga).

***"We carefully plan the employment of our young people and adults with intellectual disabilities in the restaurant, and in doing so, we provide a pleasant working atmosphere that helps to motivate them, gives a sense of acceptance and promotes creativity, general well-being and the psychophysical health of users."***
