ABOUT SOCIAL PLATFORM

Social Platform is the largest network of European rights- and value-based civil society organisations working in the social sector.

Social Platform's mission is to advocate for policies that bring social progress to everyone living in the European Union, applying a human-rights approach to fight for a socially just and cohesive Europe that promotes equality, diversity, solidarity, democracy and human dignity.

The topics Social Platform works on can be divided into six key areas:

PEOPLE CENTRED SERVICES:

Our work in this area focuses on guaranteeing access to affordable and quality public and social services of general interest and ensuring a strong social dimension of the internal market.

CIVIL DIALOGUE:

Our work in this area focuses on the shrinking space for civil society and issues of partnership between civil society organisations and public authorities in different policy fields.

SOCIAL PROTECTION:

Our work in this area focuses on the promotion of inclusive, effective and efficient social protection and welfare systems and their centrality to maintaining and securing the European social model.

QUALITY EMPLOYMENT:

Our work in this area focuses on active inclusion strategies around key topics, such as adequate minimum income, equality on the employment market, work-life balance, etc.

EQUALITY FOR ALL:

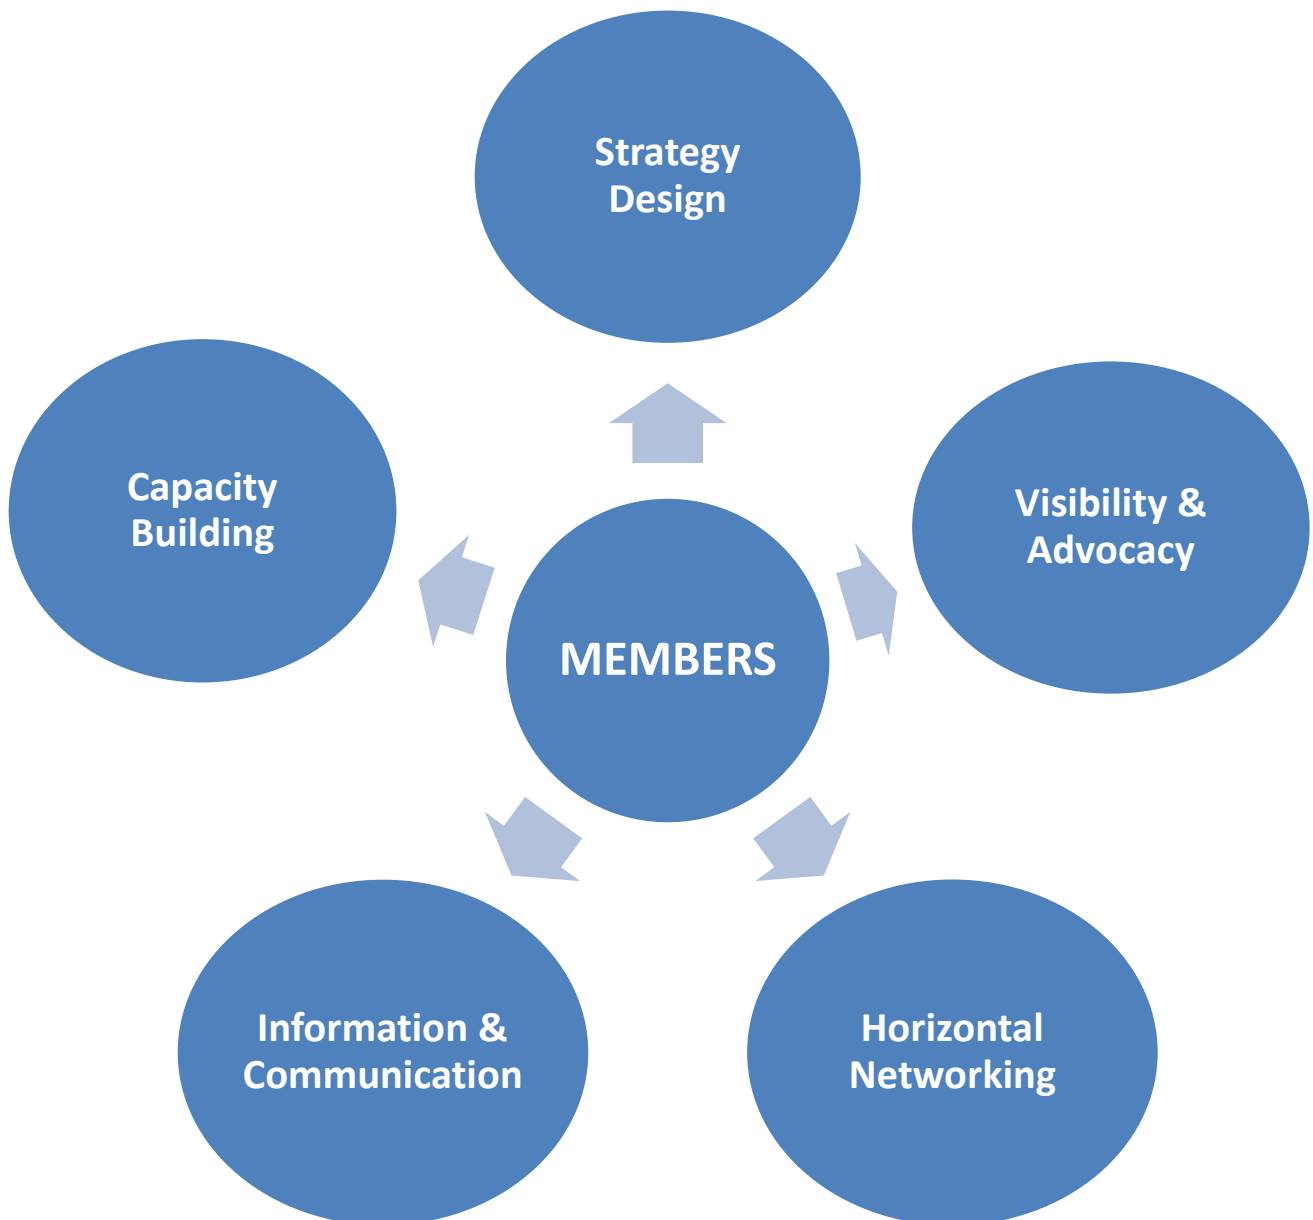

Our work in this area focuses on combating discrimination on all grounds (including social, economic and residency status) to ensure equality in practice.

SOCIO-ECONOMIC JUSTICE:

Our work in this area focuses on the reduction of inequalities in wealth redistribution and the provision of services (such as housing, education, health, etc.) to close the growing gap in European societies.

From women and LGBTIQ persons to migrants, from children, youths and elderly people to individuals with disabilities, from families and carers to people living in poverty and victims of discrimination and violence, the work of our members spreads across various focus groups. Likewise, our members demonstrate a wide array of expertise through active involvement in and promotion of social action and service provision across different sectors, be it housing, health, employment, education, the social economy or volunteering.

Social Platform is open to any European federation or network of non-governmental organisations active in the social sector, which meet the criteria for membership set forth in our [statutes](#) (as summarised below).

Social Platform has two types of membership:

- (i) Full membership
- (ii) Associate membership

Full Membership

Full members set the guidelines and priorities of Social Platform and make an ongoing contribution to the network's activities. Notably, they have the right to contribute to and vote on Social Platform's annual work programmes, budgets, accounts, and the election of the Management Committee.

To become a full member, the network or federation must:

- Demonstrate its representativeness and that it is structured and managed in a democratic way
- Bring added value to the work of Social Platform

Associate Membership

Associate members take part in and input into the activities of Social Platform, but cannot take part in formal votes.

To become an associate member, the network or federation must:
